September 11, 2013, marks the 12th anniversary of the terrorist attacks on the Twin Towers in New York City, the Pentagon in Arlington, Virginia, and Flight 93 in Shanksville, Pennsylvania. On this solemn anniversary, take time to help students understand the events of this fateful day, some of whom were too young to remember or possibly were not even born when the events happened. To help you explain the 9/11 events, the heroic actions of rescue workers, and the bonding of a nation, look to Thinkfinity's collection of lessons, artifacts and interactives that will help your students understand the impact of the September 2001 events, and how they still affect our nation to this day.
